XV. Right To Farm

Section 1 – Legislative Purpose and Intent

The purpose and intent of this bylaw is to state with emphasis the Right to Farm accorded to all citizens of the Commonwealth under Article 97 of the Article of Amendment of the Massachusetts Constitution and all state statutes and regulation thereunder including but not limited to Massachusetts General Laws Chapter 40A, Section 3, Paragraph 1; Chapter 90, Section 9; Chapter 111, Section 125A; and Chapter 128, Section 1A. We the citizens of Blandford restate and republish these rights pursuant to the Town’s authority conferred by Article 89 of the Articles of Amendment of the Massachusetts Constitution (“Home Rule Amendment”). This General By-Law encourages the pursuit of agriculture, promotes agricultural-based economic opportunities, and protects farmlands within the Town of Blandford by allowing agriculture use and related activities to function with minimal conflict with abutters and Town agencies.

Section 2 – Definitions

The word “farm” shall include any parcel or contiguous parcels of land, or water bodies used for the primary purpose of agriculture. The words “farming” or “ agriculture” or their derivatives shall include, but not be limited to the following:

- Farming in all its branches and the cultivation and tillage of soil;
- Production, cultivation, growing, and harvesting of any agricultural, aquacultural, floricultural, viticultural, or horticultural commodities;

- Raising of livestock including horses;
- Keeping of horses as a commercial enterprise;

- Keeping and raising of poultry, swine, cattle, sheep, ratites (such as emus, ostriches, and rheas) and camelids (such as llamas, alpacas, and camels), and other domesticated animals for food and other agricultural purposes, including bees and fur-bearing animals.

“Farming” shall encompass activities including, but not limited to, the following:

- Operation and transportation of slow-moving farm equipment over roads within the Town;
 - Control of pests including, but not limited to, insects, weeds, predators, and disease organisms of plants and animals;
 - Application of manure, fertilizers, and pesticides;

Section 3 – Right to Farm Declaration

The Right to Farm is hereby recognized to exist with the Town of Blandford. The above-described agricultural activities may occur on holidays, weekdays, and weekends by night or day and shall include the attendant incidental noise, odors, dust, and fumes associated with normally accepted agricultural practices. It is hereby determined that whatever impact may be caused to others through the normal practice of agriculture is more than offset by the benefits of farming to the neighborhood, community, and society in general. The benefits and protections of the By-Law are intended to apply exclusively to those commercial and private agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Right to Farm By-Law shall be deemed as acquiring any interest in land, or imposing any land use regulation, which is properly the subject of state statute, regulation, or local zoning By-Law.

Section 4 – Disclosure Notification to Real Estate Buyers

In order to allow prospective purchasers to make informed decisions prior to a real estate transaction and to promote harmony between farmers and their new neighbors after a transaction, the Town of Blandford requests selling landholders and/or their agents (and assigns) provide written notice to prospective purchasers substantially as follows: “It is the policy of the Town of Blandford to conserve, protect and encourage the maintenance and improvement of agricultural land for the production of food and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform buyers that the property they are about to acquire lies within a town where

farming activities occur. Such farming activities may include, but are not limited to, activities that cause noise, dust and odors. Purchasing, and henceforth occupying land within Blandford means that one should expect and accept such conditions as a normal and necessary aspect of living in Blandford.”

Section 5 – Resolution of Disputes

Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Board of Selectmen, the Zoning Enforcement Officer, or the Board of Health, depending upon the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have. The Zoning Enforcement Officer or Board of Selectmen may forward a copy of the grievance to the Agricultural Commission of its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the referring Town authority within an agreed-upon time frame. The Board of Health, except in cases of imminent danger or public health risk, may forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed-upon time frame.

Section 6 – Severability Clause

If any part of this bylaw is for any reason held to be unconstitutional or invalid, such decision shall not affect the remainder of this bylaw. The Town of Blandford hereby declares the provisions of this bylaw to be severable.

If the officer to whom notice is directed by the Town Clerk does not resign the office within five days following receipt of the aforesaid notice from the Town Clerk, the Town Clerk shall give notice in writing to the Board of Selectmen not later than one work day following the expiration of the foregoing five days. The Board of Selectmen shall order a special election to be held not less than sixty-four nor more than ninety days after the receipt of notice from the Town Clerk as aforesaid. If, however, any other town election is to be held within one hundred days of receipt by the Board of Selectmen of notice from the Town Clerk, the recall election shall be postponed and shall be held at such time and in conjunction with such other election. If a vacancy occurs in the office for any reason after a recall election has been ordered by the Board of Selectmen, the recall election shall nevertheless proceed as provided for herein.

Section 4: Any officer sought to be removed may be a candidate to succeed himself, and unless he requests otherwise in writing, the Town Clerk shall place his name on the ballot without nomination. If recalled and not reelected in the recall election held pursuant to **Section 6**, he shall be deemed removed upon the qualification of his successor, who shall hold office during the unexpired term. If the successor fails to qualify within five days after receiving notification of his election, the office shall be deemed vacant.

If a majority of the votes cast is against the recall, the votes for the candidates need not be counted. If a majority of the votes cast is in favor of the recall, the officer shall be deemed to be recalled and the ballots for candidates shall then be counted. The candidate receiving the highest number of votes shall be declared elected. If the officer is recalled, he shall be deemed removed upon certification of the election results by the Town Clerk. 2. Co-locate: A term meaning that more than one wireless communications facility can be installed and operated on a single tower.

3. Elevation: The measurement of height above sea level.
4. Monopole: A style of tower characterized by a single round pole having the general configuration of a flag pole. The monopole does not appear significantly larger at its base than at the point of maximum height.
5. Telecommunications Tower: A monopole structure with antennas, if any, designed to facilitate the following types of services: cellular telephone service, personal communications services, and/or enhanced specialized mobile radio service.
6. Wireless Communication Facility: Any tower (including antennas, if any), or antenna placed on existing building or structure, or any device, wiring or equipment designed to facilitate or be utilized in connection with the provision of the following types of specialized mobile radio service as well as any structures, buildings and/or appurtenances utilized primarily for the installation and operation of equipment necessary for the provision of such services. This definition does not include an antenna used by a federally licensed amateur radio operator or television antennas or satellite dishes which are accessory to a residential use.

C. Special Permit Requirements

A wireless communication facility shall require a building permit in all cases and may be permitted as follows:

1. All wireless communications facilities shall require a Special Permit from the Zoning Board of Appeals.
2. No wireless communications facilities shall be erected or installed except in compliance with the provisions of this Section. Any proposed modifications to an existing wireless communications facility including, but not limited to extension in the height, addition of antennas or panels, or construction of a new or replacement of a facility shall be subject to these provisions and shall require a new application. The SPGA may, at its discretion, waive any application requirements to existing facilities.

All newly constructed wireless communications facilities shall be located in the Agricultural District.
4. New towers shall be free-standing monopoles.

2. No tower, including any attachments, shall be erected nearer to any existing structure than a distance equal to 125% of its vertical height.
3. All towers shall be pre-engineered to fail at a pre-determined height enabling the structure to collapse upon itself in the event of a catastrophic failure.

All wireless communications facilities shall be painted, colored, and/or constructed of materials that minimize the visual impact of the facility on adjacent abutter, residential neighbors and other areas of town, and blend in with the surrounding landscape or the structure on which they are located.
9. Fencing shall be provided to control access to wireless communications facilities and shall reflect the visual character of the neighborhood or natural surroundings.
10. Signage is limited to providing the following information, and must adhere to the Town's current signage bylaw; the facility, the owner and operator and an emergency telephone number where the owner can be reached on a twenty-four (24) hour basis must be clearly displayed; a no trespassing sign; a sign displaying the Federal Communications Commission registration number; and any signs required to warn of danger.
11. There shall be a minimum of one (1) parking space for each facility, to be used in connection with the maintenance of the site. There shall be no storage of vehicles or equipment on the site.
12. To the extent feasible, all network interconnections facilities from the communications site shall be via land lines.

6. A description of the capacity of the tower including the number and type of panels, antenna and/or transmitter receivers that it can accommodate, and the basis of these calculation.
7. A statement that the sound levels under normal operating condition, whether emanating directly from, or as a result of natural wind blowing through the wireless communications facility, measured at the boundary of the lot on which it is sited, shall not be greater than would otherwise exist in the absence of such facility.
8. A statement of the services to be supported by the proposed wireless communication facility and a delineation on the Zoning District Map of all areas in Blandford which will not be served by the proposed installation for the primary site and an alternate site.
9. A description of the special design features utilized to minimize the visual impact of the proposed wireless communication facilities in accordance with sections
10. A certification that the applicant possesses all necessary licenses to operate such a facility and has complied with all federal and state requirements to provide the proposed service.
11. Within thirty days after filing the application for any new tower or extension in height thereto, the applicant shall arrange to fly a balloon at the primary and an alternate site at the maximum height of the proposed installation on a weekend day between the hours of 10 a.m. and 4 p.m. The balloon shall be of size and color that can be seen from every direction for a distance of one mile.
